Add the industry you are planning a career in here

As you plan your career in one industry, identifying your transferable skills is important.

What skills do you bring with you from another industry/ occupation that can be transferred to this industry, and may be helpful as you move into a different industry in the future?

For detailed information about occupations within a sector (such as schools, employment projections, current wage ranges and a link to jobs listed at WorkSource):

- go to www.workforceexplorer.com
- · Click on the "wage and benefit information" link, and
- Click on the "occupation explorer" link to start your search.
